

## SUBJECT INDEX

- Annotated Bibliography of Historical Documents in Science Education, C. A. Wall, 297
- Appraisal of Nuffield Science Project, A. A. Taiwo, 479
- Attitudes of Oregon High School Seniors Toward Some Environmentally Orientated Science Related Social Issues, R. L. Steiner, 417
- Audio-Tutorial and Conventional Methods of College-Level Biology for Non-Science Majors, C. H. Grobe and A. W. Sturges, 65
- Behavioral Objectives for Science Methods Courses: A Humanistic Approach, A. J. McCormack, 55
- Biological Science as an Audio-Tutorial System of Instruction for the Non-Science Major, D. Hackett and I. V. Holt, 499
- Cognitive Analysis of Instructional Materials: An Illustration of One Use of the Taxonomy of Educational Objectives, H. V. Scott, 291
- College Teacher Preparation: Current Status, D. L. Stockdale and Z. S. Wochok, 353
- Comparison of the Science Content Knowledge of Graduates from Florida's New Elementary Program and Graduates Who Had Their Science Education in a Traditional Course, L. Oberlin and L. B. Sanders, 331
- Competency Movement and Science Education, R. A. Roth, 361
- Critical Analysis of Pictorial Research Related to Science Education, W. G. Holliday, 201
- Decade of Preschool Science: Promises, Problems, and Perspectives, D. E. Richard, 437
- Development, Field Test, and Validation of Scales to Assess Teachers' Attitudes Toward Teaching Elementary School Science, R. W. Moore, 271
- Development of a Test of Piaget's Logical Operations, R. J. Raven, 377
- Direction of the New Science Curricula: An Appraisal and an Alternative, I. Q. Saadeh, 247
- Dynamic Structure and Science Bias, K. C. Soh, 335
- Effect of Abnormal Speed Motion Picture Films on a Child's Spatio-Temporal Recognition. Part II: On the Comparison of Synchronous and Isochronous Events, I. Mori and N. Tadang, 325
- Evaluation of the Cooperative College-School Science Improvement Program to Prepare Teachers to Teach the DISCUS Program, C. M. Bridges, Jr., N. E. Bingham, and M. M. Green, 193
- Evaluation of the Divergent Physics Laboratory, R. D. Learch, 153
- Evaluation of Science Achievement and Science Test Development in an International Context: The IEA Study in Science, L. E. Klopfer, 387
- Examination of the Ability of Third Grade Children from the Science Curriculum Improvement Study to Identify Experimental Variables and to Recognize Change, L. R. Allen, 135
- Experience-Based Science and Mathematics Preservice Teacher Education Program, W. R. Brown, 453
- Flight from Science Reconsidered: Career Choice of Science and Engineering in the 1950's and 1960's, J. G. Reitz, 121
- "Futuring" About Science Teacher Education, P. D. Hurd, 517
- Grading Practices of High School Physics Teachers: A Contributing Factor to Declining Enrollments in Physics, D. Dietrich, 25
- Historical Documents in Science Education, A. M. Voelker and C. A. Wall, 77
- Historical Documents of Significance to Science Educators: A Bibliographical Listing, A. M. Voelker and C. A. Wall, 111
- Individualizing Physical Science, J. W. Butzow and R. R. Pare, 493
- Inductive vs. Traditional Methods of Teaching High School Biology Laboratory Experiments, J. Egelston, 467
- Is American Science Education at the Crossroads? A. K. Ozinonu, 219

- Learning Achievement and the Efficiency of Learning the Concept of Vector Addition at Three Different Grade Levels, A. R. Gubrud and J. D. Novak, 179
- Measurement of High School Students' Knowledge About Science and Scientists, G. S. Aikenhead, 539
- Model for Determining the Objectives of Science Education, J. W. Butzow, Jr., and L. W. Linz, 15
- Modular Methods Course in Conjunction with Portal Schools, W. Capie, 71
- Nature of Science, Self-Actualization, and Science Teacher Education, D. H. Ost, 521
- Need for Politics in Science Education, F. X. Finigan, 31
- Note on the Correct Interpretation of Significant F in Discriminant Function Analysis, S. W. Huck, 413
- On the So-called "Science-Religion" Conflict, W. G. Johnson, 169
- Open Access Curriculum—An Approach to Individualism and Student Involvement, A. J. Moore and P. House, 215
- Performing a Problem Survey—Data for Educational Change, P. Geisert, 533
- Principles of Gestalt Psychology and Their Application to Teaching Junior High Science, P. E. Blosser, 43
- Process of Categorizing in High and Low Socio-Economic Status Children, R. Johnson, Jr., 1
- Putting it All Together—Inquiry Process, Science Concepts, and the Textbook, W. K. Esler, 19
- Rationale for Pass-No Record Grading, S. Rosen and R. Revak, 405
- Reforms, Revisions, Reexamination: Secondary Science Education Since World War II, C. Dede and J. Hardin, 485
- Relationship Between Academic Achievement in Science and Father's Occupation, A. N. James and W. N. Pafford, 37
- Research and Development in Science Education: A Bibliographic History, A. M. Voelker and C. A. Wall, 263
- Science as Play, C. Raymo, 279
- Science for the Transition Years, D. R. Nesbitt and N. E. Bingham, 365
- Self-Evaluation and Performance on Classroom Tests, R. L. Egelston and J. C. Egelston, 525
- Structuring a Performance-based Teacher Education Program in Science, C. D. Dziuban and W. K. Esler, 161
- Systems Engineering, Humanism, and the Teaching of Science, R. M. Agne and R. J. Nash, 227
- Teacher Expectations, A Study of Their Genesis, F. X. Lawlor and E. P. Lawlor, 9
- Value Systems in Life Science Instruction, D. J. Kuhn, 343
